Our MathPlus 3/4 program prepares young students entering the 3rd or 4th grades for the increasingly “high-stakes” testing environment in schools today. The goal of the course is to improve your child’s mathematical skills for the increasingly important mathematics achievement tests. We incorporate test-taking strategies, yet at the same time, our experienced teachers provide a stimulating environment that is essential for all students to do well in math. The many features of the course make it one of the most comprehensive available. The learning environment features:

-  Problem-based learning
-  Integrated strategies using manipulatives
-  Simulated exam questions
-  Small class sizes (9 students **maximum**)
-  Experienced Teachers

#### Summer Schedule Days and Times
